GREEN

- BALANCE (YIN YANG)
- HARMONY
- HOPE
- GROWTH
- RENEWAL

ABOUT GOING GREEN..

GREEN not just stands for HOPE but symbolizes BALANCE, like Yin and Yang. It's considered a NATURAL PEACEMAKER, a generous, relaxing color that revitalizes our body and mind.

GREEN is also associated with environmental awareness (as is manual grinding), renewal and progress (check out our innovative features).

There is no better color than GREEN to assist in refocussing on harmony, a visual reminder of peace, nature and the importance of growth.
